

**Project LLIV-326 LAKES FOR FUTURE**  
 Project Partner 5 – Latvian Environment, Geology and Meteorology Centre  
**Linda Fibiga**  
*Head of Water Division, LEGMC*  
*Project Partner Coordinator*  
 Saldus, 24.04.2012.

**Latvian Environment, Geology and Meteorology Centre**

- Hydrometeorological forecasts and warnings;
- Calibration and verification of measuring instruments;
- Environment monitoring;
- Processing and providing of information on environment quality and conditions (int.al., meteorology, hydrology, geology, radiation, chemicals);
- Sampling on environment objects and laboratory support;
- Hazardous and radioactive waste management.

**LEGMC role in project**

- Supporting environmental aspects in project
- Assessment of environmental conditions – water quality in Durbe lake

**Planned activities**

1. Historical Durbe lake water quality data review and assessment, 2012
2. Water sampling & testing during one year period, May 2012 – April 2013
3. Analysis of gathered data on water quality – assessment of environmental conditions, and proposals for necessary measures for water quality improvement, 2013-2014
4. Management, 2012 - 2014

LATVIAN  
ENVIRONMENT, GEOLOGY  
AND METEOROLOGY CENTRE

## Started activities

- Managamental actions:
  - Prepared direction for project starting;
  - Set involved specialists;
  - Participation in kick-off meeting in Saldus, 24.04.2012.

LATVIAN  
ENVIRONMENT, GEOLOGY  
AND METEOROLOGY CENTRE
